

NagraID Security presents the most advanced display cards at Showstoppers on @CES 2012

Las Vegas, Nevada, 10th January 2012 – NagraID Security (NIDS), a subsidiary of the Kudelski Group presents their revolutionary display cards that enable cardholders to use the same device for payment, physical access and to secure their online accounts and transactions for card not present environments. The MasterCard and Visa EU certified display cards by NIDS are the exact size of normal credit cards with an additional LCD and an optional 12-button touch sensitive keypad. The integrated flexible LCD can display one-time-passwords, personalized messages or other critical information; custom firmware loading capability combined with the smartphone like keypad enables advanced applications such as card PIN protection, challenge/response and transaction signing. Cardholders can use the same card for standard banking payment functionality, physical access, and to generate one-time passcodes (OTP's).

NIDS is showcasing their innovations including the latest dual interface information card along with their new card equipped with the new dot matrix display at ShowStoppers@CES in the Lafite Ballroom of the Wynn Las Vegas Hotel.

About NagraID Security

Nagra ID Security SA, a subsidiary of the Kudelski Group, produces multi-component and other complex cards for the security and identification industry. NagraID Security's Research and Development Team combine international experts having broad experience in security, cryptography, electronics, material sciences and manufacturing. NagraID Security provides advanced design, development, and industrialization capabilities for innovative authentication solutions. NagraID Security holds international patents for a non-violent lamination process used for embedding sensitive, electronic components into card and other form-factors. NagraID Security operates under the strict security guidelines of NagraID SA, an EMV-certified card manufacturing and personalization facility. Please visit www.nidsecurity.com for more information.
